YOUR PRIVATE AREA · USER GUIDE

How your *private area* works

(booking, video calls and more, step by step)

Andrea Fernández

Studio Renacer

app.studiorenacer.com

WELCOME

Now you also manage your sessions online

Your therapy stays exactly the same. The only change is that you now have a private space to book sessions, join video calls and keep everything to hand.

I've put this guide together to make getting started easy. You don't need to be tech-savvy: it's just a few steps, and if anything goes wrong, message me and we'll sort it out together.

Your private area is at **app.studiorenacer.com**. It's a secure, confidential space: only you and I have access to your information.

1 Activate your account

You'll receive an email from **Studio Renacer** with the subject "Activate your account". Open it and click the link.

First you choose your **password** (at least 8 characters, with one capital letter and one number). Then you confirm the **informed consent**: it's the same one you already signed with me on paper, now digital, so everything lives in one place.

TIP

The email link expires for security. If yours has expired, just tell me and I'll resend a fresh one right away.

2 Logging in each time

From then on, you always log in at **app.studiorenacer.com** with your email and password.

Forgotten your password? On the login screen tap "Forgot your password?" and follow the steps in the email. No need to let me know.

3 Booking and managing appointments

On your dashboard, in the **calendar**, you'll see the date and time of your already scheduled appointments.

If you want to **request another appointment or change one**, you can do it right there: pick a free day and time (video call or in person) and I confirm it from my side; you'll get an email with the date.

And if you ever need to **cancel**, please remember the 24-hour cancellation policy set out in your service contract.

TIP

When an appointment is confirmed you can add it to your calendar (Google, Apple...) with one click, so it doesn't slip by.

4 Joining the video call

If your session is online, the **video call link** appears on the appointment itself. There's nothing to install.

A few minutes before the time, go into your private area, open the session and click the link. Find a quiet spot where you feel comfortable.

5 Your session pack

At the top you'll see your **pack**: how many sessions you have and how many are left. It updates on its own as we go.

That way you always know where you stand, without having to keep count yourself.

6 Your service contract

The contract we signed is also stored in your private area, in the contract section, so you can **view or download it** whenever you need to.

7 Your data and your rights

Your information is confidential and stored encrypted on European servers. At any time you can **export all your data** from your private area (export button), and exercise your rights of access, rectification or erasure.

For anything to do with your data, write to me at **info@studiorenacer.com**.

BEFORE YOUR SESSION

How to set up your video call

A few small details make an online session as comfortable and useful as an in-person one.

YOUR DEVICE AND YOUR SPACE

- ✓ **Good connection and battery.** Connect where you have a stable internet signal, with your device charged or plugged in, so the session doesn't drop.
- ✓ **Make sure you're well seen.** Place the camera so your face and body are visible at least from the chest up, with light in front of you (avoid having the window behind you).
- ✓ **Headphones are better.** Preferably with headphones: the sound is clearer and it adds privacy.
- ✓ **A private, safe place.** Find a quiet space where you're on your own and no one can interrupt or overhear you.

DURING THE SESSION

- ✓ **No distractions.** Phone on silent, and avoid doing other things while we talk.
- ✓ **Confidentiality.** The session is private: be on your own and don't record it or take screenshots.
- ✓ **Get comfortable.** Keep water and tissues within reach and settle somewhere you can talk calmly.

And above all: this is your space, free of judgement. Speak as freely as you need to.

QUESTIONS?

I'm just one message away

If any step doesn't work or you have any doubt, don't wrestle with the screen: message me and we'll fix it in no time.

Message me anytime

I'm happy to help you take the first step.
